

T to Tease

For many T Drinkers, there is hardly anything in life today more fun and productive than drinking T and also creating & sharing their Tease (T's) for humanity's sake. Once you have signed up to drink T, you can join all T Drinkers who love creating Tease in T to both enjoy viewing T's productions and to share them by, for instance, uploading them on a variety of websites. You can upload to YouTube and Twitter directly in T itself.

The positive impact on the world of our Tease is already significant. Many people recognize that these Tease are often fresh, unbiased, informative and fun. Unsurprisingly, a recent broadcast on BBC World Service was devoted to discussing such Tease and also what may come next. You can listen to this broadcast at <http://www.bbc.co.uk/programmes/p04q778m>

How to get T to generate a Tease

In the T's page at <http://rftgyc.com/conversations>, you can create a Tease for any single T that has already been created. The T must be of the Perspectives, Presentation or News type. (Check the value in the Topics/Source column.) The original T may have been created by you (One mind) or by anyone (mind One).

After selecting a T by checking the box next to the T's title, choose one of the three "A Tease" options from the dropdown in the top region of the page as shown below. You can post the generated Tease video directly to your channel on YouTube or add to a tweet posted by your Twitter account or receive the Tease by e-mail. Please note that if you have signed into T via LinkedIn, the Twitter upload option will not appear. Only in this case, to post to your Twitter account, you can receive a Tease by e-mail and then add to a tweet yourself. To post to your channel on YouTube, you must already be logged into YouTube. The uploaded video is posted on YouTube as unlisted. You can change this on their site directly.

Click on the adjoining export button to get the Tease generation process started. You can optionally first refresh a T using the Refresh button adjoining the dropdown before you request that the Tease be generated. Since only one Tease can be generated at a time, please make sure that only one T is selected.

Due the complexity of the processes involved in Tease generation, it may take up to a minute for a Tease to be generated. A pop-up will appear on the screen as shown below after the Tease has been generated which will guide you further depending on which of the three Tease generation options you selected from the dropdown.

The content of a sample e-mail sent with an attached Tease is included below. Please review the text of the e-mail you receive carefully to make sure you understand in what all ways the attached Tease can be used by you. You will also receive in the e-mail body the suggested title and description of your Tease.

Dear T Drinker,

A Tease of "george santayana philosopher" that you requested on T is attached to this e-mail. We request you to use the suggested title and description when you share this Tease with anyone or put it up on any website. The Tease and the associated meta-data must not be edited. Please note that we will not be responsible for any issue that arises due to your use of this video and the meta-data.

Please also note that we retain the right to suspend/terminate your account on T at any time for any cause. For instance, we may suspend/terminate your account should you generate and share a Tease that we judge has unsuitable content.

Whenever you have concerns about any Tease that you or any other T Drinker generated on T, please contact us at help@rftgyc.com

We request you to not only drink T and create & share such Tease often but also to tell everyone you can influence about T as they, too, will benefit from drinking T regularly. We will, for sure, by working together hasten dawn of the day when most humans (and also our machines!) are far better informed and entertained.

Thanks,

T

Suggested title: 'A Tease of george santayana philosopher'

Suggested description:

This Tease is generated using T, one of the most advanced artificial intelligence technology platforms ever created. It includes relevant Thoughts such as:

Top 10 George Santayana Quotes Periods of tranquillity are seldom prolific of creative achievement.

In this volume the writings of George Santayana are scrutinized and critically evaluated by eighteen of Santayana's philosophical contemporaries.

The impact on the world of Tease like this one is discussed in a recent broadcast on BBC World Service. You can listen to it next at <http://www.bbc.co.uk/programmes/p04q778m>

To drink the full T for which this Tease serves like a preview, visit <http://rftgyc.com/conversations/george%20santayana%20philosopher>.

T works hard to serve as everyone's 24/7 companion working as their second mind supplementing their first mind, the biological one. Please support T and my hard work for humanity's sake by sharing this Tease with others and also by signing up for T immediately.

Don't you next want to create and then share such Tease for any topic you care about? We are fairly sure you do. If you aren't already a T Drinker, first sign up for T at <http://rftgyc.com> because each T Drinker can create and share such Tease. In fact, for many T Drinkers, there is hardly anything in life today more fun and productive than drinking T and creating such Tease for humanity's sake.

This Tease was brewed with content from:

How to customize a Tease

To customize the Tease that is generated from a T, you can now also generate a Tease in the T details page that you can get to by clicking on the title of the T in the T's page. For example, for the T for **edvard munch painter** below at <http://rftgyc.com/T/28200>, certain topics were selected together with specific positive or negative sentiments. Now, when the "A Tease" button is pushed at the bottom of this screen, a Tease will be generated and e-mailed which will respect the constraints specified. This, too, like most of the rest of T also works like magic and provides fun unlimited.
